How to Use This Index

The *Products Liability Law Reporter* Annual Index is designed to make your 2003 issues of the *Products Liability Law Reporter* a reliable and accessible research tool. Here are a few things you should know to make the best use of your index:

General Index by Subject (page PL-3). The major subject headings in the General Index correspond to the areas covered in each issue of the *Products Liability Law Reporter*.

To locate a particular kind of case, first determine which area your inquiry falls into. Entries within each subject include both factual and legal issues. The numbers after the entries are the page numbers in Volume 22 of the *Products Liability Law Reporter* where the cases appear.

Table of Cases (page PL-8). This table includes the most complete citations available as of November 2003.

News (page PL-15). This index lists products and issues that have been discussed in news stories appearing in the *Reporter*.

Federal Agency Actions (page PL-15). This index lists products involved in administrative actions taken by federal agencies.

Injury Awards (page PL-16). Entries in this section will direct you to cases in the *Products Liability Law Reporter* that contain awards of damages for particular types of injuries. The following abbreviations are used in this section of the index: V for verdict; S for settlement; SS for structured settlement; PVS for postverdict settlement; AA for arbitration award; PAS for postarbitration settlement; M for mediation. An asterisk beside an entry indicates plaintiff suffered injuries in addition to the one(s) listed.

Wrongful Death Awards (page PL-17). This table lists the wrongful death awards reported in Volume 22 of the *Products Liability Law Reporter*. The following abbreviations are used in this section of the index: V for verdict; S for settlement; SS for structured settlement; PVS for postverdict settlement; AA for arbitration award; PAS for postarbitration settlement; M for mediation.

Insight (page PL-17). This index lists bylined articles that have appeared in the *Reporter* by author and by subject.

To Obtain Further Information About a Case. The *Products Liability Law Reporter* provides pleadings, depositions, briefs, and other court documents through the Court Document Sets section each month. That column also provides a list of Abstract Sets—each set includes a collection of case summaries appearing in the *Reporter* from 1993 to the present. You can also order Ultimate Documents, which include documents from at least seven different cases on the topic, an abstract set, and a bylined article. The best source for additional information about a case is plaintiff's counsel. The name and location of plaintiff's counsel is provided, where possible, at the end of our report of the case. Your ATLA membership directory will provide you with the complete address and telephone number of any ATLA member. The directory is available online at www.atla.org.
