How to Use This Index

The *Professional Negligence Law Reporter* Annual Index is designed to make your 2002 issues of the *Professional Negligence Law Reporter* a reliable and accessible research tool. Here are a few things you should know to make the best use of your index:

General Index by Subject (page PN-3). The major subject headings in the General Index correspond to the areas of law covered in each issue of the *Professional Negligence Law Reporter*.

To locate a particular kind of case, first determine which area your inquiry falls into. Entries within each subject include both factual and legal issues. The numbers after the entries are the page numbers in Volume 17 of the *Professional Negligence Law Reporter* where the cases appear.

Table of Cases (page PN-7). This table includes the most complete citations available as of December 2002.

Injury Awards (page PN-12). Entries in this section will direct you to cases in the *Professional Negligence Law Reporter* that contain awards of damages for particular types of injuries. The following abbreviations are used in this section of the index: V for verdict, S for settlement, SS for structured settlement, PVS for postverdict settlement, AA for arbitration award, PAS for postarbitration settlement, M for mediation. An asterisk beside an award indicates plaintiff suffered injuries in addition to the one listed.

News (page PN-12). This index lists issues that have been discussed in news stories appearing in the *Reporter*.

Wrongful Death Awards (page PN-13). This table lists the wrongful death awards reported in Volume 17 of the *Professional Negligence Law Reporter*. The following abbreviations are used in this section of the index: V for verdict, S for settlement, SS for structured settlement, PVS for postverdict settlement, AA for arbitration award, PAS for postarbitration settlement, M for mediation.

To Obtain Further Information About a Case. The *Professional Negligence Law Reporter* provides pleadings, depositions, briefs, and other court documents through the Court Document Sets section each month. That column also provides a list of Abstract Sets—each set includes a collection of case summaries appearing in the *Reporter* from 1993 to the present. The best source for additional information about a case is plaintiff’s counsel. The name and city of the plaintiff’s counsel involved in a case is provided, where possible, at the end of our report of the case. Your ATLA membership directory will provide you with the complete address and telephone number of any ATLA member.
