VALUABLE PRACTICE TOOLS
STREAMLINE YOUR CASE PREPARATION

❖ Over 150 Packets & Growing!

See Inside for Extra Savings and Value Plans!

www.justice.org/LitigationPackets

The Exchange, an online resource for legal research and practice resources.
AAJ Exchange Litigation Packets

Litigation Packets are an essential legal resource for trial lawyers. They are particularly valuable for small firms and sole practitioners—offering the expertise of a large legal team.

Each Litigation Packet is unique and provides materials that allow you to simplify and improve your case preparation. They are organized by topic, such as Medical Negligence, Motor Vehicle, Nursing Home, and Products Liability.

Every AAJ Exchange Litigation Packet is available for download or on searchable CD-ROM format and offers valuable practice tools, such as: deposition transcripts and summaries, pleadings, sample complaints, case law, written discovery, trial transcripts, and tips and strategies from experienced AAJ plaintiff members.

AAJ members should also submit their documents to the AAJ Exchange. By contributing your depositions, pleadings, and other case documents, AAJ can build the most comprehensive and confidential plaintiff database in the country. Email contributions to docdrive@justice.org.

The AAJ Exchange is endowed by Robert A. Clifford.

• Federal Employers’ Liability Act (FELA) .................................... 19
Admissibility of Expert Testimony: Daubert, Frye, and Other Standards
[UPDATED September 2015; 2,872 pages]
- Discussion of Daubert, Frye, and other expert admissibility standards, case law, and recent opinions
- Procedural and scheduling issues and tactics
- How to “Daubert-proof” your experts
- Sample court documents including briefs, depositions, and an expert report
- Motions to strike expert testimony and oppositions in medical malpractice, automobile, product liability, crashworthiness, toxic tort, mold, and railroad cases, including a motion to strike “Fake Bad Scale” testimony and opinions precluding maternal forces testimony
- Table providing state-by-state analysis, with accompanying case law and statutory references

Electronic Discovery
[UPDATED May 2015; 1,300 pages]
- Discussion of types of electronically stored information (ESI), strategies for the review of electronic discovery, preservation and production of electronic evidence, online social networking sites, and the role of computer forensic experts
- Electronic discovery checklist
- How to preserve ESI and avoid spoliation, including sample preservation letters
- Rule 30(b)(6) deposition tactics and techniques, including sample requests for production of documents, notice of 30(b)(6) deposition, motions, and orders
- Discussion of amendments to the Federal Rules of Civil Procedure
- Overview of case law on pivotal issues such as cost shifting, spoliation, sanctions, and privilege

NEW UPDATE! Electronic Medical Records
[UPDATED January 2016; 4,400 pages]
- Provides an overview of what is contained in an electronic medical record, how to properly request production and ensure a complete record, and how to use audit trails to assess record accuracy and completeness
- Contains requests for production, motions and briefs for production, interrogatories, HIPAA and HITECH information, sample medical record authorization forms and record request letters, sample audit trails, and court filings in cases involving failure to produce documents and alteration of medical records
- Deposition summaries and transcripts of defendant doctors, medical records administrators, and hospital information management employees
- AAJ Education speaker papers and Trial articles

ERISA Reimbursement Claims Survival Guide
[UPDATED June 2013; 1,534 pages]
- What plaintiff attorneys should know to protect their client and themselves when confronting ERISA reimbursement claims
- Addresses issues such as information to obtain at case intake, determining what your client owes, defenses and limitations on insurer recovery, ethical considerations, identifying ERISA plans, the meaning of “appropriate equitable relief,” preemption, insured versus self-funded plans, social security disability issues, and traditional equitable defenses
- Provides plaintiff attorneys tools for handling these reimbursement claims, and includes statutes and regulations, case law and case summaries, court documents, a sample letter, AAJ Education speaker papers, and more
- Case law includes pre- and post-Sereboff decisions, including U.S. Airways, Inc. v. McClutchen

Federal Tort Claims Act: From Mandatory Administrative Claims to Bench Trials
[UPDATED September 2015; 5,185 pages]
- Administrative claims materials include tort litigation manuals and handbooks from federal agencies and the military, federal agency regulations and procedures for settling claims, a FOIA checklist, and relevant statutes
- Court documents, including complaints, interrogatories, requests for production, motions to limit testimony, and trial briefs, from birth injury, medical malpractice, wrongful death, automobile collision, and slip and fall cases
- Depositions of treating physicians and expert witnesses from medical malpractice claims against military hospitals
- Settlement and verdict resources include a chart of significant FTCA verdicts and a chart of loss of consortium verdicts
- AAJ Education speaker papers provide tips and advice for specific practice areas, administrative settlements, proving damages, and common defenses

Discovery Strategy: Effective Use of Rules 30(b)(2), 30(b)(6), and 34
[UPDATED May 2015; 1,176 pages]
- Explores strategic discovery methods to compel complete production of documents
- Illustrates the interplay between Fed. R. Civ. P. 30(b)(2), 30(b)(6), and 34
- Court documents including written discovery, motions, and orders from interstate trucking, nursing care facility, and products liability cases which illustrate how 30(b)(2), 30(b)(6), and 34 can be used in conjunction with one another
- Instructs on using 30(b)(6) to produce incident reports, relevant electronic information, and other documents
- Motion, brief, case law, and AAJ Education papers addressing sanctions available when the defendant fails to comply with discovery requests
- AAJ Education papers outlining the interplay between the rules of evidence and how to get what you are entitled to in discovery

[Deposition summary accompanies each deposition transcript]

Combating Protective Orders
[March 2015; 740 pages]
- Tools and guidance on how to respond and quash motions for protective orders from corporate defendants
- Sample motions for protective orders, plaintiff oppositions, motions to compel production, and orders related to those motions
- Includes fifty state survey and federal circuit survey with relevant statutes and case law governing protective orders
- Overview of important case law and papers on court secrecy, discovery, and ethics
- Addresses a wide range of practice areas including insurance, motor vehicle, product liability, and other cases

Electronic Discovery
[UPDATED May 2015; 1,300 pages]
- Discussion of types of electronically stored information (ESI), strategies for the review of electronic discovery, preservation and production of electronic evidence, online social networking sites, and the role of computer forensic experts
- Electronic discovery checklist
- How to preserve ESI and avoid spoliation, including sample preservation letters
- Rule 30(b)(6) deposition tactics and techniques, including sample requests for production of documents, notice of 30(b)(6) deposition, motions, and orders
- Discussion of amendments to the Federal Rules of Civil Procedure
- Overview of case law on pivotal issues such as cost shifting, spoliation, sanctions, and privilege

NEW UPDATE! Electronic Medical Records
[UPDATED January 2016; 4,400 pages]
- Provides an overview of what is contained in an electronic medical record, how to properly request production and ensure a complete record, and how to use audit trails to assess record accuracy and completeness
- Contains requests for production, motions and briefs for production, interrogatories, HIPAA and HITECH information, sample medical record authorization forms and record request letters, sample audit trails, and court filings in cases involving failure to produce documents and alteration of medical records
- Deposition summaries and transcripts of defendant doctors, medical records administrators, and hospital information management employees
- AAJ Education speaker papers and Trial articles

ERISA Reimbursement Claims Survival Guide
[UPDATED June 2013; 1,534 pages]
- What plaintiff attorneys should know to protect their client and themselves when confronting ERISA reimbursement claims
- Addresses issues such as information to obtain at case intake, determining what your client owes, defenses and limitations on insurer recovery, ethical considerations, identifying ERISA plans, the meaning of “appropriate equitable relief,” preemption, insured versus self-funded plans, social security disability issues, and traditional equitable defenses
- Provides plaintiff attorneys tools for handling these reimbursement claims, and includes statutes and regulations, case law and case summaries, court documents, a sample letter, AAJ Education speaker papers, and more
- Case law includes pre- and post-Sereboff decisions, including U.S. Airways, Inc. v. McClutchen

Federal Tort Claims Act: From Mandatory Administrative Claims to Bench Trials
[UPDATED September 2015; 5,185 pages]
- Administrative claims materials include tort litigation manuals and handbooks from federal agencies and the military, federal agency regulations and procedures for settling claims, a FOIA checklist, and relevant statutes
- Court documents, including complaints, interrogatories, requests for production, motions to limit testimony, and trial briefs, from birth injury, medical malpractice, wrongful death, automobile collision, and slip and fall cases
- Depositions of treating physicians and expert witnesses from medical malpractice claims against military hospitals
- Settlement and verdict resources include a chart of significant FTCA verdicts and a chart of loss of consortium verdicts
- AAJ Education speaker papers provide tips and advice for specific practice areas, administrative settlements, proving damages, and common defenses

[Deposition summary accompanies each deposition transcript]
HIPAA and Its Privacy Rules
[UPDATED June 2014; 2,255 pages]
- What plaintiff attorneys should know about HIPAA and protected health information to protect their clients
- AAJ Education speaker papers on common HIPAA issues, including filing privacy complaints, compliance, and enforcement
- HIPAA and HITECH authorizations and releases, letters to health providers, and compliance letters
- Court documents including motions and memoranda, court decisions, protective orders, and privacy agreements
- Statutory and regulatory materials
- Department of Health and Human Services HIPAA materials and Internet resources

Medicare and Medicaid Reimbursement Claims Survival Guide
[UPDATED February 2015; 2,011 pages]
- What plaintiff attorneys should know to protect their clients and themselves when confronting Medicare and Medicaid reimbursement claims
- Detailed instructions addressing changes to the lien resolution and practical tips for streamlining the lien resolution process
- Addresses issues such as information to obtain at case intake, determining what your client owes, future billings for past services, future benefits, mandatory reporting, settlement, allocation, resolving and negotiating the claim, waiver, where to put the funds, consequences for nonpayment, and ethical considerations
- Case law summaries and analysis and relevant statutes and regulations for Medicare and Medicaid
- Overview of the effects of the mandatory reporting requirements and the SMART Act as well as AAJ Education speaker papers, Trial articles, and more

Preemption: A Changing Landscape
[UPDATED March 2014; 3,782 pages]
- Addresses the changing landscape of federal preemption of state tort law claims in pharmaceutical (brand name and generic), medical device, auto safety, aviation, and railroad litigation
- Explores the implications of various regulatory agencies and attempts to preempt state tort laws
- Briefs from a variety of cases arguing against defense motions for summary judgment on preemption grounds
- Orders from various jurisdictions denying federal preemption
- Discussion of Wyeth, Riegel, and Mensing decisions

Settlement Brochures
[UPDATED July 2013; 704 pages]
- How to prepare an effective settlement brochure on any budget
- Checklists, outlines, and strategies for developing settlement brochures used for pre-litigation, mediation, and settlement negotiations
- Examples of written settlement brochures from motor vehicle, medical negligence, traumatic brain injury, spinal cord injury, birth trauma, and products liability cases
- Bonus DVD with two video settlement brochures from serious injury and wrongful death cases
- AAJ Education speaker papers and Trial articles on settlement strategies, damages, life care plans, vocational experts, and more

Running a Small Firm: Management from Start-up to Trial
[UPDATED January 2014; 1,171 pages]
- Insight and advice for plaintiff attorneys operating or opening a small law office
- Addresses business formation, staff, technology in the modern law office, marketing and advertising, accounting, expanding your practice, ethics, and trial on a budget
- Sample forms and templates for fee agreements, accounting, business transactions, and client communications
- Sample employee manual
- AAJ Education speaker papers, Trial articles, and newsletter articles from leading sole practitioners and small firms around the country

Spoliation of Evidence
[UPDATED December 2014; 934 pages]
- An overview of spoliation of evidence law including a state-by-state analysis of spoliation case law
- Sample preservation letters
- Over 30 court documents from medical negligence, automobile/trucking, civil rights/discrimination, and nursing home cases, including motions and memoranda for summary judgment, adverse inferences, and other discovery sanctions; appellate briefs; orders; jury instructions; and AAJ Education speaker papers
- Transcript of motions hearing for sanctions for spoliation of evidence

Taking Depositions
[UPDATED February 2013; 3,331 pages]
- Deposition techniques such as exhaustion, restating and summarizing, and boxing in
- Questioning adverse experts, including defense medical examiners and standard of care experts
- Discussion on the 30(b)(6) deposition and its role in your overall discovery plan
- Depositions and deposition outlines from several practice areas including: auto, interstate trucking, insurance, nursing home, and medical malpractice
- Guidance for organizing depositions, video conferencing/telephone depositions, handling abusive tactics, and preparing your client for deposition
- How to use deposition psychology in eliciting answers

Top Verdicts of 2013: Opening Statements and Closing Arguments
[July 2014; 3,788 pages]
- Opening statements and closing arguments from the top verdicts of 2013 offers a unique view into what motivates a jury, providing insight no matter who your clients are, what your practice area is, or even your jurisdiction
- All thirteen of the featured verdicts were received by AAJ members
- Practice areas include trucking collisions, medical negligence, nursing home neglect, products liability, antitrust, and professional negligence
- Case summaries and AAJ Education speaker papers addressing openings and closing generally and in specific practice areas such as medical malpractice, nursing homes, motor vehicle, employment cases, and even punitive damages

[Deposition summary accompanies each deposition transcript]
Top Verdicts of 2014: Opening Statements and Closing Arguments
[July 2015; 1,350 pages]

- AAJ Education speaker papers and Trial articles
[Deposition summary accompanies each deposition transcript]

Complex Regional Pain Syndrome/Reflex Sympathetic Dystrophy (CRPS/RSD)
[UPDATED November 2014; 1,144 pages]
- Tips and strategies from AAJ members who have successfully pursued CRPS/RSD/causalgia cases
- Explores the diagnosis and treatment of CRPS/RSD and how to explain it to a jury
- Identifies criteria for case selection and screening
- Discusses common defense approaches to these cases and how to combat them
- Profiles a case involving a woman who was diagnosed with CRPS type II after she experienced a nerve puncture during the insertion of an intravenous needle and a case involving a man diagnosed with CRPS after a crushed foot injury
- Includes complaint, answer, written discovery, expert reports, depositions of plaintiff and defense experts, and verdict information
- Contains AAJ Education speaker papers and Internet resources
[Deposition summary accompanies each deposition transcript]

Damages: Using Opening Statements and Closing Arguments
[UPDATED May 2012; 1,905 pages]
- Addresses all aspects of damages including general principles of proving damages in the opening statement and closing argument, motivating jurors, and proving defendant’s bad conduct.
- Focuses on crafting persuasive opening statements and closing arguments, utilizing storytelling and theme, creating structure, maintaining credibility, and persuading jurors.
- Contains opening statement and closing argument transcripts from a variety of topic areas including birth injury, spinal cord injury, nursing home, pharmaceutical, products liability, motor vehicle, trucking, and highway defect.

Life Care Plans
[October 2013; 2,095 pages]
- Provides an overview of life care plans and addresses plan creation, evaluation of costs, life care plans for specific contexts, and defending a plan at trial.
- Sample life care plans
- Depositions of life care planners and medical experts and arbitration transcript of a cross-examination of a plaintiff expert
- AAJ Education speaker papers, presentations, and articles highlight strategies, potential pitfalls, and key considerations
[Deposition summary accompanies each deposition transcript]

Stevens-Johnson Syndrome
[December 2014; 1,144 pages]
- Stevens-Johnson Syndrome (SJS) and toxic epidermal necrolysis (TEN) are life threatening conditions often caused by a reaction to a medication
- Includes complaints, discovery motions, deposition summaries and transcripts, trial transcripts, and a verdict from cases involving medical care providers and drug manufacturer
- Includes public letter to FDA regarding Children’s Motrin warning labels, FDA’s response, and drug warning
- AAJ Education speaker papers on openings, closings, and trying medical malpractice cases, deposing expert witnesses, and determining the breach of the standard of care
[Deposition summary accompanies each deposition transcript]

“AAJ Litigation Packets are an excellent resource. The information is always cutting-edge, topical, and very useful. The resource has improved my practice tremendously.”

—G. Grant Dixon III, LaGrange, Illinois, AAJ Member since 1993
Traumatic Brain Injuries  
[UPDATED June 2015; 3,994 pages]
- Explores the investigation; filing; discovery; common defenses; science and testing; and trial and settlement of cases involving traumatic brain injuries
- Addresses common issues in traumatic brain injury cases including: no loss of consciousness defense; malingering; negative results from diagnostic tests; neuropsychological testing; mild brain injury; premorbid and comorbid conditions
- Examines evidentiary issues including the exclusion of defense expert testimony, Fake Bad Scale testimony, and the admission of Diffusion Tensor Imaging (DTI) expert testimony
- Sample court documents include complaints; interrogatories; requests for production; and motions in limine
- Introduction to TBI and sports, including an overview of concussion litigation
- Depositions of neuropsychologists, neurologist, and life care planner as well as biomechanical engineer trial testimony
- Other resources include voir dire, opening statements, and closing arguments transcripts; bibliography of medical literature; AAJ Education speaker papers; and Trial articles

SEX DISCRIMINATION AND SEXUAL HARASSMENT

Sex Discrimination and Sexual Harassment  
[UPDATED May 2013; 2,173 pages]
- Resource for attorneys litigating workplace sexual harassment and sex discrimination cases
- Provides an overview of the parties, administrative remedies, procedural issues, tolling, case theories, and common defenses
- Sample court documents include complaints, requests for production, interrogatories, trial briefs, motions in limine, summary judgment briefs, jury instructions, and EEOC communications
- Opening statements and closing arguments from a sexual harassment case and a gender discrimination and retaliation case
- Resources for handling attacks on the plaintiff’s character and sexual history
- Relevant statutes, case law, and AAJ Education speaker papers providing tactics and tips for litigating employment discrimination cases

INSURANCE

Allstate Automobile Claims  
[UPDATED June 2015; 3,868 pages]
- Explores issues of investigation, negotiation, discovery, and theories of liability
- Analysis of general claims handling of automobile bodily injury claims at Allstate including Claims Core Process Redesign (CCPR), MIST, Colossus, UM and UIM claims, Special Investigative Unit, and Allstate’s incentives programs
- Sample court documents: complaints; requests for production; motions, oppositions, and orders regarding protective orders; motions for sanctions against Allstate; and depositions of numerous Allstate employees; and exhibits
- Explores bad faith and other theories of liability
- Internet resources including links to Allstate documents

Bad Faith in Homeowners Insurance Claims  
[UPDATED June 2013; 2,619 pages]
- Comprehensive resource for bad faith suits stemming from failures of insurance companies to investigate and resolve homeowners or property insurance claims in a fair and timely manner
- Addresses each stage of litigation, from case evaluation and discovery through trial
- Sample complaints, interrogatories, requests for production, motions, and briefs
- Deposions of engineer and fire investigator expert witnesses, corporate representatives, and insurance company employees
- Checklists for causes of action, depositions questions for claims adjusters and supervisors, and requests for production
- AAJ Education speaker papers and Trial articles offering advice and insight for discovery, depositions, protective orders, damages, expert testimony, and more

EMPLOYMENT RIGHTS

Employment Discrimination Law  
[UPDATED January 2015; 1,245 pages]
- Resource for cases involving unfair workplace practices and employment decisions based on race, sex, age, religion, disability, or family medical history
- Contains complaints, summary judgment motions, and sample briefs
- Employment law statutes and U.S. Supreme Court case summaries outlining the changing role of a Rule 56 summary judgment motion and its application in employment rights cases
- AAJ Education speakers addressing voir dire in employment cases, case law review, Iqbal/Twombly implications, and practical considerations when filing an employment discrimination case

Fair Labor Standards Act (FLSA)  
[UPDATED July 2012; 2,747 pages]
- Comprehensive resource for representing workers in wage and hour suits
- Addresses minimum wage violations, failure to pay overtime, failure to compensate for all hours worked, misclassification, and retaliation
- Detailed memorandum of all employee exemptions in the FLSA
- Sample court documents include complaints, interrogatories, requests for production, requests for admissions, motions for class certification, and more
- Depositions and outlines for CPA experts, 30(b)(6) corporate representatives, management, and the plaintiff
- Resources for calculating damages, jury instructions, settlement, appeal, past verdicts, and attorneys fees

[Deposition summary accompanies each deposition transcript]
NEW UPDATE: Defense Medical Examiner: Defusing the Testimony
[UPDATED February 2016; 2,250 pages]
- Explores issues such as: investigating the defense medical examiner prior to deposition; opposing or limiting the defense medical examination (DME); motions to videotape and attend DME; compelling discovery of examiner’s financial information; disqualifying the examiner; and the potential liability of the examiners for medical negligence
- Depositions of several defense medical examiners, from different specialties, including neurology, neuropsychology, orthopedics, radiology, and rehabilitation, illustrating how to exclude or neutralize the testimony and expose bias
- Sample interrogatories, requests for production, motions to videotape and attend DME, and motions to compel production
- AAJ Education speaker papers
[Deposition summary accompanies each deposition transcript]

Flood Insurance Claims
[April 2013; 3,257 pages]
- Guide to filing a claim including analysis of the National Flood Insurance Act, National Flood Insurance Program, and Write-Your-Own policies and related statutes, regulations, and case law
- Sample complaints, interrogatories, requests for production, expert disclosures, and motions
- Form complaints for residences, condos, and community building general property
- Depositions of insurance company adjusters, cost of repairs experts, structural engineer, and insurance company corporate representative
- National Flood Insurance Program resources and manuals
[Deposition summary accompanies each deposition transcript]

Hurricane Claims
[UPDATED June 2013; 1,152 pages]
- Explores investigation and filing, discovery, common insurer tactics, common plaintiff motions, and flood versus wind damage
- Contains client questionnaire, sample complaints, statutes and regulations, interrogatories, requests for production, motion to compel appraisal, motion for entry of judgment, plaintiff’s motion for summary judgment, motions in limine, motions in opposition, and expert depositions
- AAJ Education speaker papers and guide to handling flood claims which cover issues from National Flood Insurance Program, policy exclusions and coverage, adjusters, statute of limitations, appraisal, appeal, and much more
[Deposition summary accompanies each deposition transcript]

Litigating the First Party Bad Faith Insurance Claim
[UPDATED January 2015; 2,065 pages]
- Guide to litigating first party bad faith insurance claims whether based on property, disability, workers’ compensation, health, or accident policies including UM and UIM claims
- Depositions of claims adjusters, claims supervisor, insurance company medical director, corporate designee, and defense experts
- Court documents include complaints; motions to compel, interrogatories; requests for production; requests for admission; and responses to motions for summary judgment
- Checklists for causes of action, deposition questions for claims adjusters and supervisors, and requests for production
- Addresses the client interview and other pre-suit considerations, plus filing the claim, discovery, voir dire, common defenses, jury selection, ERISA, genuine-issue rule, and damages
[Deposition summary accompanies each deposition transcript]

State Farm Automobile Claims
[UPDATED July 2015; 2,616 pages]
- Addresses State Farm claims handling procedures, including claims files, common defenses, bodily injury claims, medical claims, and uninsured and underinsured motorist claims
- Sample complaints; requests for production; motions; oppositions and order; depositions of numerous State Farm employees; and appellate briefs
- Case materials from underinsured motorist claim, no fault bodily injury payment, and malicious prosecution cases
- Explores bad faith and other theories of liability, common defenses to payment, and punitive damages issues
[Deposition summary accompanies each deposition transcript]

Benicar®
[September 2015; 300 pages]
- Popular blood pressure medications, including Benicar, Benicar HCT, Azor, and Tribenzor have been linked to severe intestinal issues known as spruce-like enteropathy
- Spruce-like enteropathy mimics the symptoms of celiac disease and is characterized by chronic diarrhea, significant weight loss, nausea, and overall malnutrition
- Resources include a sample complaint, case screening information, and information on the MDL
- AAJ Education speaker papers and drug information from the FDA

Biomet Metal on Metal Hip Implant
[UPDATED February 2014; 484 pages]
- Provides overview of Biomet metal-on-metal hip implant litigation
- Sample client intake documents, questionnaire, preservation letter, complaints, and written discovery material
- Information on MDL
- AAJ Education speaker papers, medical journal survey, and FDA materials

da Vinci® Robotic Surgery
[UPDATED July 2014; 680 pages]
- An overview of litigation regarding Intuitive Surgical’s da Vinci robots, including both medical malpractice and product liability claims
- Contains case screening documents
- Includes sample products liability and medical malpractice complaints
- Includes new information on FDA recalls of product parts
- Deposition transcripts and summaries of robotic surgery physician defense experts
- AAJ Education speaker papers, medical journal survey, and FDA materials
[Deposition summary accompanies each deposition transcript]
**GranutFlo® and NaturalLyte® Acid Concentrates**  
*[UPDATED July 2014; 732 pages]*
- Provides an overview of litigation surrounding Fresenius's GranuFlo and NaturalLyte acid concentrates and increased risks of cardiopulmonary arrest and sudden cardiac death during or after dialysis treatment
- Sample client intake questionnaire and sample federal and state complaints
- Overview of the pending MDL
- FDA materials and a discussion of 510(k) premarket notification and Class II medical device
- AAJ Education speaker papers and medical journal survey

**Lipitor®**  
*[UPDATED July 2014; 428 pages]*
- Provides an overview of the litigation surrounding Lipitor® and the increased risk of diabetes in women
- Sample client intake documents, questionnaire, and complaints
- Written discovery material including Plaintiff's First Request for Production and Plaintiff's First Set of Interrogatories and Defendant's Requests for Production
- Information on MDL
- AAJ Education speaker papers, product information from the FDA, and a medical journal survey

**Medtronic InFuse® Bone Implant**  
*[UPDATED January 2014; 1,115 pages]*
- Resources for attorneys investigating and filing cases for injuries caused by Medtronic InFuse, an implantable bone graft medical device that received premarket approval for a specific anterior approach surgical procedure but has been heavily used in off-label surgical procedures resulting in injuries
- Medtronic InFuse can produce excessive bone growth often impinging on nerve roots—which in turn causes extreme pain, nerve injury, bodily function impairments, and tumor growth
- Includes sample intake and screening forms, complaints, pleadings, summary judgment opinion denying preemption of medical device, and a transcript for a motion on summary judgment
- AAJ Education speaker papers addressing post-Riegel ramification and medical devices, resources from the FDA, findings from Senate Committee on Finance, and a bibliography of medical journal articles

**Mirena® IUD**  
*[UPDATED February 2014; 764 pages]*
- Mirena, a T-shaped IUD prescribed to prevent pregnancy, can spontaneously perforate the uterus and migrate into the abdominal cavity, imbedding in the surrounding tissues and organs and requiring surgery for removal
- Sample client intake questionnaire and sample federal and state complaints
- Information on the pending MDL and state court actions
- Product information from the FDA
- AAJ Education speaker papers with information on the litigation, case selection, and possible defenses, and a survey of relevant medical journal articles

**Risperdal®**  
*[UPDATED March 2014; 1,371 pages]*
- Risperdal, an atypical (second generation) antipsychotic originally approved for the treatment of schizophrenia and Bipolar I disorder in adults but marketed off-label to children and adolescents, can increase prolactin levels and cause irreversible gynecomastia
- Includes case screening criteria, a sample complaint, and an overview of litigation
- AAJ Education speaker papers, product information from the FDA, and a survey of medical journal articles

**Pradaxa®**  
*[UPDATED February 2014; 1,843 pages]*
- Pradaxa, a blood thinning medication prescribed primarily to reduce the risk of strokes in individuals with atrial fibrillation, can cause life threatening bleeds and, unlike other blood thinning products, has no known reversal antidote
- Includes sample complaints, client intake forms, and MDL materials
- AAJ Education speaker papers, resources from the FDA, and a bibliography of medical journal articles

**Propecia®/Proscar®**  
*[UPDATED July 2013; 295 pages]*
- Propecia, treatment for male pattern hair loss, has been linked to sexual dysfunction, prostate cancer, and male breast cancer
- Overview of the science behind Propecia, its development by Merck, and the biological effects of the drug
- Case screening materials including sample client questionnaires, case selection criteria, and statute of limitations considerations
- Sample complaints and information on the MDL
- AAJ Education speaker papers, FDA materials, and a medical journals survey
  [Deposition summary accompanies each deposition transcript]

**Risperdal**  
*[UPDATED February 2016; 2,630 pages]*
- Provides plaintiff attorneys with the tools to pursue pharmaceutical products liability cases and addresses important issues relating to the FDA and drug companies
- Overview of the FDA prescription drug approval and post-market surveillance procedures and their inherent flaws
- Information on the symbiotic relationship between the FDA and the drug industry
- Pharmaceutical marketing tactics, including the use of drug reps and ghostwritten medical literature, and the effect on the learned intermediary doctrine
- Promotion of off-label use by drug companies and adverse effects
- Pharmacology and epidemiology and their role in proving causation
- Preemption issues and cases, including Wyeth, Mensing, and Riegel
- Sample complaints, client intake and evaluation forms, written discovery, and briefs
- Obtaining electronically-maintained information in discovery and an explanation of the adverse event reporting system
- Selecting and “Daubert-proofing” experts

**Liability Cases and the FDA**  
*[UPDATED February 2016; 2,630 pages]*
- Provides plaintiff attorneys with the tools to pursue pharmaceutical products liability cases and addresses important issues relating to the FDA and drug companies
- Overview of the FDA prescription drug approval and post-market surveillance procedures and their inherent flaws
- Information on the symbiotic relationship between the FDA and the drug industry
- Pharmaceutical marketing tactics, including the use of drug reps and ghostwritten medical literature, and the effect on the learned intermediary doctrine
- Promotion of off-label use by drug companies and adverse effects
- Pharmacology and epidemiology and their role in proving causation
- Preemption issues and cases, including Wyeth, Mensing, and Riegel
- Sample complaints, client intake and evaluation forms, written discovery, and briefs
- Obtaining electronically-maintained information in discovery and an explanation of the adverse event reporting system
- Selecting and “Daubert-proofing” experts

**Lipitor®**  
*[UPDATED July 2014; 428 pages]*
- Provides an overview of the litigation surrounding Lipitor® and the increased risk of diabetes in women
- Sample client intake documents, questionnaire, and complaints
- Written discovery material including Plaintiff's First Request for Production and Plaintiff's First Set of Interrogatories and Defendant's Requests for Production
- Information on MDL
- AAJ Education speaker papers, product information from the FDA, and a medical journal survey

**Medtronic InFuse® Bone Implant**  
*[UPDATED January 2014; 1,115 pages]*
- Resources for attorneys investigating and filing cases for injuries caused by Medtronic InFuse, an implantable bone graft medical device that received premarket approval for a specific anterior approach surgical procedure but has been heavily used in off-label surgical procedures resulting in injuries
- Medtronic InFuse can produce excessive bone growth often impinging on nerve roots—which in turn causes extreme pain, nerve injury, bodily function impairments, and tumor growth
- Includes sample intake and screening forms, complaints, pleadings, summary judgment opinion denying preemption of medical device, and a transcript for a motion on summary judgment
- AAJ Education speaker papers addressing post-Riegel ramification and medical devices, resources from the FDA, findings from Senate Committee on Finance, and a bibliography of medical journal articles

**Mirena® IUD**  
*[UPDATED February 2014; 764 pages]*
- Mirena, a T-shaped IUD prescribed to prevent pregnancy, can spontaneously perforate the uterus and migrate into the abdominal cavity, imbedding in the surrounding tissues and organs and requiring surgery for removal
- Sample client intake questionnaire and sample federal and state complaints
- Information on the pending MDL and state court actions
- Product information from the FDA
- AAJ Education speaker papers with information on the litigation, case selection, and possible defenses, and a survey of relevant medical journal articles

**Risperdal**  
*[UPDATED March 2014; 1,371 pages]*
- Risperdal, an atypical (second generation) antipsychotic originally approved for the treatment of schizophrenia and Bipolar I disorder in adults but marketed off-label to children and adolescents, can increase prolactin levels and cause irreversible gynecomastia
- Includes case screening criteria, a sample complaint, and an overview of litigation
- AAJ Education speaker papers, product information from the FDA, and a survey of medical journal articles
**Stryker® Rejuvenate and ABG II Hip Implants**
[Updated February 2015; 909 pages]
- Provides overview of Stryker Rejuvenate and ABG II hip implant litigation
- Discusses the fretting and corrosion of the modular neck junction, increased risk of metal ion release, and resulting disease related to the metal ion exposure
- Sample client intake questionnaire, preservation letter, and complaints
- Information on state court actions, MDL, and settlement
- Discussion of 510(k) premarket notification and Class III medical devices
- AAJ Education speaker papers, medical journal survey, and FDA materials

**Testosterone Therapy**
[Updated July 2015; 3,581 pages]
- Explains the science and litigation theories around exogenous testosterone, which has been aggressively marketed to men who feel tired, depressed, or have low sex drive as a result of "Low T"
- Sample client screening and case intake
- Sample complaint and information on the MDL
- Recent studies link this treatment to increased risk of stroke, pulmonary embolism, myocardial infarction, and deep vein thrombosis
- Product information from the FDA, bibliography of medical journal articles, and several AAJ Education speaker papers

**Transvaginal/Pelvic Mesh**
[Updated July 2015; 1,761 pages]
- Addresses litigation surrounding transvaginal mesh, a medical device used during urogynecological surgeries for correction of pelvic organ prolapse (POP) and stress urinary incontinence (SUI)
- Injuries include infection, pelvic pain, scarring, urinary pain, hardening of mesh, vaginal pain, extrusion of mesh, injury to nearby organs, erosion of mesh, sexual difficulty, shrinkage of mesh, disfigurement, bleeding, mesh removal, granuloma formation, and corrective surgery
- Sample client intake documents and questionnaire
- Sample complaint and information on state cases and MDLs
- Discussion of 510(k) premarket notification and Class II medical device
- AAJ Education speaker papers, medical journal survey, and FDA materials

**Xarelto®**
[Updated July 2015; 853 pages]
- Resources for attorneys investigating and filing cases for injuries and deaths caused by Xarelto, a blood thinning medication prescribed to reduce the risk of stroke and blood clots, primarily in people with atrial fibrillation
- Xarelto can cause life threatening bleeds and, unlike other blood thinning products, has no known reversal agent
- Includes sample complaints and case screening information, and information on the MDL
- AAJ Education speaker papers, resources from the U.S. Food and Drug Administration, and a medical journal survey

**Zimmer Knee Implant**
[Updated February 2013; 757 pages]
- Overview of litigation surrounding Zimmer knee implants and addresses the loosening and revision of “flex” knee implants
- Sample client intake documents and questionnaire, sample complaints, and case materials from the MDL
- Discussion of 510(k) premarket notification and Class II medical device
- AAJ Education speaker papers, medical journal survey, and FDA materials

**Zofran®**
[May 2015; 538 pages]
- Resources for attorneys investigating and filing cases for birth defects caused by Zofran, an anti-nausea medication approved for the treatment of chemotherapy related nausea but prescribed off label to pregnant women for the treatment of morning sickness and hyperemesis gravidarum
- Zofran has been linked to congenital heart defects, including atrial septal defect (ASD) and ventricular septal defect (VSD), cleft lip, and cleft palate
- Includes a sample complaint and case screening information
- AAJ Education speaker papers, resources from the U.S. Food and Drug Administration, and a bibliography of related medical journal articles

**Birth Injury: Cerebral Palsy and Intrapartum Hypoxia**
[Updated March 2011; 2,095 pages]
- Addresses issues common to cerebral palsy cases including caustion, improper monitoring and assessment, failure of physicians and nurses to act on non reassuring fetal heart rate patterns, failure to perform a cesarean section, placental pathology, neuroradiology, and chain of command
- Sample court documents include complaints, interrogatories, requests for production, and motions to suppress the testimony of expert witnesses
- Explores the science, investigation, ACOG publications, common defenses, discovery, trial, settlement, and how to establish causation
- Depositions of obstetricians, nursing expert, infectious disease specialist, neonatologist, pediatric neurologist, maternal-fetal specialist, and defense life expectancy experts
- AAJ Education speaker papers and extensive medical glossary
  [Deposition summary accompanies each deposition transcript]

**Birth Injury Cases: Pitocin**
[Updated March 2013; 3,924 pages]
- Explores labor induction methods and injuries to both mother and infant
- Discussion of Pitocin administration and other common labor induction methods
- Addresses ACOG publications and common defenses
- Depositions of treating physicians, hospital staff, and expert witnesses from several cases
- Sample complaints, discovery requests, and mediation brief
- Transcripts of opening statement, closing argument, and expert testimony
- AAJ Education speaker papers, medical glossary, Internet resources, and medical journal survey
  [Deposition summary accompanies each deposition transcript]

**Birth Injury Cases: Failure to Diagnose Preeclampsia**
[September 2014; 2,850 pages]
- Explains eclampsia, preeclampsia, severe preeclampsia, and failure to diagnose or properly treat by doctors and medical professionals
- Complaints from several cases, discovery motions, as well as trial testimony transcript of a treating doctor
- Depositions of defendant doctors and nurses, obstetrics/gynecology and maternal-fetal medicine experts
- Overview of ACOG guidelines, medical journal survey, AAJ Education speaker papers, and a Trial article
  [Deposition summary accompanies each deposition transcript]
Birth Injury Cases: Shoulder Dystocia  
[UPDATED May 2015; 2,530 pages]
- Addresses substantive medical and legal issues that arise in shoulder dystocia cases including natural forces of labor defense
- Identifies criteria for case selection and screening, discusses risk factors, and addresses common defenses
- Depositions of plaintiff and defense expert witnesses regarding brachial plexus injury and Erb’s palsy
- Sample court documents including complaints, Daubert motions, and orders regarding maternal forces theory
- AAJ Education speaker papers, national guidelines regarding shoulder dystocia and childbirth procedures, and other secondary resources

[Deposition summary accompanies each deposition transcript]

Failure to Conduct a Proper Differential Diagnosis  
[UPDATED May 2011; 3,162 pages]
- Tips and strategies from AAJ members who have successfully pursued differential diagnosis cases
- Court documents, opening statements and closing arguments, and trial testimony and depositions of defendants and experts from differential diagnosis cases, including from a top jury verdict for failure to conduct a proper differential diagnosis regarding a brain abscess
- AAJ Education speaker papers providing an overview of differential diagnosis in medical negligence cases, including how a physician must formulate a differential diagnosis, prioritization of differential diagnoses, eliminating diagnostic candidates, common sources of error in formulating a differential diagnosis, using differential diagnosis to prove causation, and a survey of journal articles

[Deposition summary accompanies each deposition transcript]

Failure to Diagnose Breast Cancer  
[UPDATED June 2015; 1,956 pages]
- Explores complex issues of causation, standards of care, loss of chance for a cure, staging, doubling-time, life expectancy, and overall case-handling strategies and techniques
- Addresses screening and diagnostic mammography
- Sample court documents: complaints, requests for production, expert disclosures, and interrogatories
- Depositions of obstetricians/gynecologists, surgeons, radiologists, dermatologist, oncologists, and nurse practitioner

[Deposition summary accompanies each deposition transcript]

Failure to Diagnose in the Emergency Room  
[UPDATED October 2015; 4,597 pages]
- Examines the failure of emergency room physicians and staff to properly diagnose and treat medical emergencies, including myocardial infarction, pneumonia, aneurism, appendicitis, pulmonary embolism, and spinal epidural abscesses, resulting in catastrophic injuries and deaths
- Sample court documents include complaints and interrogatories
- Depositions of defendant emergency physicians, defendant consulting physician, triage nurses, treating nurses, trauma surgeons, emergency medicine experts, and nursing experts
- Trial testimony from a defendant physician and emergency medicine experts
- AAJ Education speaker papers, Trial articles, compartment syndrome bibliography, and an overview of conditional immunity and the trend towards a heightened standard of proof

[Deposition summary accompanies each deposition transcript]

Failure to Diagnose a Pulmonary Embolism  
[UPDATED May 2015; 2,840 pages]
- Court documents including complaints, written discovery, expert reports, and pre-trial statement
- Depositions of plaintiff and defense expert witnesses including family physicians, emergency department physicians, diagnostic radiologist, vascular surgeon and cardiovascular specialist regarding adequacy of treatment, standards of care, and diagnostic testing
- Depositions of defendant doctors regarding emergency room standard of care for detection of a pulmonary embolism, Medical Review Panel witnesses regarding deviation from standard of care, and plaintiff and defense administrative experts regarding hospital policy and procedure
- Opening statements and closing arguments from failure to diagnose pulmonary embolism cases
- AAJ Education speaker papers, medical journal survey, glossary of medical terms, and national guideline summaries regarding evaluation and management of a pulmonary embolism

[Deposition summary accompanies each deposition transcript]

Failure to Diagnose Stroke  
[UPDATED July 2015; 3,126 pages]
- Examines the failure of emergency medicine physicians, hospitalists, neurologists, and radiologists to properly diagnose and treat stroke
- Addresses issues common to failure to diagnose stroke cases including causation, failure to properly evaluate and treat, failure to recognize an emergent condition, failure to order the proper diagnostic tests, failure to appropriately read and/or interpret imaging studies, failure to communicate, failure to obtain a timely consultation, and failure to monitor
- Sample court documents include complaints, discovery requests, expert disclosures, and a mediation submission
- Depositions of emergency medicine physicians, hospitalists, neurologists, radiologists, interventional radiologist, neuroradiologists, MRI technologists, plaintiff experts, and more
- AAJ Education speaker papers and Trial articles

[Deposition summary accompanies each deposition transcript]

Failure to Timely Diagnose and/or Treat Cauda Equina Syndrome  
[UPDATED June 2013; 3,031 pages]
- Examines standard of care and causation issues surrounding the diagnosis and treatment of cauda equina syndrome
- Numerous court documents include pleadings, motions to dismiss and plaintiff’s oppositions, motions to compel, expert designations, oppositions to motions to strike expert affidavits, motions in limine, and pretrial statements
- Depositions of plaintiff and defense expert witnesses, including neurologists, neurosurgeons, neuroradiologist, emergency medicine physicians, registered nurses, physician’s assistant, nurse manager, hospital administrators, hospital representative, and radiology operations administrator, as well as depositions of plaintiffs and defendant doctors
- AAJ Education speaker papers on spinal cord injury and imaging tests and a bibliography of medical journal articles

[Deposition summary accompanies each deposition transcript]
Fetal Distress Signs and Failure to Timely Perform a Cesarean Section
[UPDATED November 2012; 885 pages]
- Case profile involving catastrophically injured infant where the physician failed to perform a timely C-section
- Addresses screening birth injury cases, signs of fetal distress, fetal monitoring tracings and mistakes, ACOG defenses, lack of communication between treating physician and hospital staff, and more
- Complaint, opening statement, closing argument, depositions of plaintiff and defense experts, and verdict information
- Contains AAJ Education speaker papers, Trial articles, and national guidelines on fetal distress, induction of labor, C-sections, and preeclampsia
  [Deposition summary accompanies each deposition transcript]

Hospital-Acquired Infections
[UPDATED June 2012; 1,497 pages]
- Explores patient safety and infection control procedures in the hospital setting
- Sample complaints in hospital-acquired surgical infection and meningitis cases
- Discovery request and expert disclosures
- Depositions of defense witnesses in a hospital-acquired infection case
- Summaries of national guidelines

Informed Consent
[UPDATED November 2015; 2,291 pages]
- Explores informed consent issues in medical negligence cases and focuses on affirmatively pleading lack of informed consent, as well as defending against alleged informed consent in negligence actions
- State-by-state informed consent statutes and case law
- Complaints and bills of particular pleading lack of informed consent
- Motions in limine and memoranda moving to exclude evidence of informed consent in negligence actions
- Written discovery requests, sample interrogatories, and deposition outline for defendant
- Depositions and trial excerpts, including voir dire, opening statements, testimony from plaintiff, defendant, and expert witnesses, closing arguments, jury instructions, and verdict, from a case tried solely on the issue of informed consent
- AAJ Education speaker papers providing an overview of informed consent law in medical negligence cases
  [Deposition summary accompanies each deposition transcript]

Life Expectancy and Neurological Injury: Defense Experts
[UPDATED January 2012; 4,155 pages]
- Following a catastrophic injury, defendants try to limit damages owed to a plaintiff through expert testimony claiming that future medical expenses should be reduced because the plaintiff’s life expectancy has been reduced
- Deposition transcripts from three notorious reduced life expectancy defense experts and expert reports drafted by these experts
- Sample motions, briefs, and court opinions where defense expert testimony was excluded under Daubert
- Sample requests for production and motions to compel production of the data underlying expert opinions

Litigating Gastric Bypass Cases
[UPDATED January 2012; 2,139 pages]
- Court documents include complaints, interrogatories, requests for production, requests for admission, and motion for summary judgment and opposition
- Depositions of defendant doctors, plaintiff experts, and defense medical examiner
- Deposition outline for a bariatric surgeon
- Medical journal survey, clinical practice guideline summaries, and Internet resources
  [Deposition summary accompanies each deposition transcript]

Nursing Errors in Hospitals
[UPDATED January 2015; 2,241 pages]
- Explores issues of case investigation, filing and pretrial, discovery, trial, and post-trial, including hospital liability, physician liability, res ipsa loquitur, and standard of care
- Sample complaint, interrogatories, requests for admissions, requests for production, and appellate briefs
- Checklists: common defenses, documents to request, and deposition questions for nurses and nurse experts
- Depositions of treating nurse, nurse supervisor, nurse expert, and Chief Nursing Officer
- Trial testimony of treating nurse, nurse expert, and treating doctor
- Case materials address issues of failure to monitor, improper performance of treatment, negligent administration of medication, and failure to communicate
  [Deposition summary accompanies each deposition transcript]

Perforated and Nicked Bowels
[UPDATED December 2013; 3,113 pages]
- Addresses the legal and medical issues that arise in cases involving failure to properly diagnose and treat perforated and nicked bowel injuries
- Sample court documents including complaints, interrogatories, expert designations, motion for protective order to limit defendant’s experts, notice of intent to introduce a medical treatise into evidence, and a joint pre-trial memorandum
- Depositions of defendant doctors, plaintiff and defendant surgical experts, infectious disease consultants, diagnostic radiologist, microbiologist, nurses, and treating physicians
- AAJ Education speaker papers and Trial articles providing an overview of perforated bowel injuries, postoperative infections, case evaluation, and hospital liability and a glossary of medical terms
  [Deposition summary accompanies each deposition transcript]

Pharmacy and Pharmacist Liability
[UPDATED May 2014; 2,469 pages]
- Discussion of traditional pharmacy and pharmacist liability and the trend of broadening liability
- Sample court documents from cases involving the failure to dispense the proper medication and the failure to warn of contraindication between two medications
- Sample complaints, requests for admission, interrogatories, and requests for production
- Depositions of plaintiffs’ pharmacy and toxicology experts, as well as depositions of pharmacists, certified pharmacy technician, and corporate representative
- Plaintiff’s opposition brief to defendant’s motion for summary judgment in a contraindication case
- AAJ Education speaker papers, Trial articles, and other secondary sources including the federal government, legal and pharmaceutical publications, and trade organizations
  [Deposition summary accompanies each deposition transcript]
Preparing and Trying the Cardiovascular Case
[UPDATED May 2013; 3,034 pages]
• Addresses issues common to cardiovascular disease cases including causation, standard of care, statute of limitations, and damages
• Explores several theories of liability including: failure to recognize signs and symptoms of aortic dissection, cardiovascular disease, and heart attack; failure to initiate proper treatment; failure to provide proper medications; failure to order proper tests; failure to properly address and interpret chest films; and failure to communicate findings and make appropriate radiological recommendations
• Court documents including complaints, interrogatories, and motions
• Trial transcripts of expert testimony, opening statements, and closing arguments
• Depositions of defendants and plaintiff and defense expert witnesses including: internists, critical care physicians, cardiologists, radiologists, and cardiothoracic surgeons
• AAJ Education speaker papers

[Deposition summary accompanies each deposition transcript]

Surgical Negligence: Retained Towel and Sponges
[UPDATED June 2011; 1,320 pages]
• Focuses on cases involving significant injuries as a result of a surgical towel or sponge being left in the abdomen following surgery
• Key documents that focus on surgical and nursing standards of care regarding surgical count procedures and causation
• Sample complaints, interrogatories, requests for admissions, and requests for production of documents
• Plaintiff and defense motions for summary judgment and reply memoranda
• Plaintiff’s response to defendant hospital’s memorandum for in camera inspection of peer review documents
• Jury instructions on foreign object counting and res ipsa loquitur
• Plaintiff’s closing argument transcript
• Depositions of several defense and plaintiff expert witnesses and defendants
• AAJ Education speaker papers outlining the players in operating room negligence and apportionment of liability, verdicts and settlements, medical glossary of terms, and abbreviated medical journal survey

[Deposition summary accompanies each deposition transcript]

Vaginal Operative Delivery: Vacuum Extraction and Forceps
[UPDATED June 2012; 1,233 pages]
• Explores the science, investigation, filing, common defenses, discovery, settlement, and causation for birth injuries stemming from vaginal operative deliveries
• Sample court documents include complaints and settlement summaries
• Deposition summaries and transcripts from a defense expert obstetrician, defense expert radiologist, nurse expert, treating physicians, and defendant family medicine physicians and obstetricians
• Provides information on the FDA warnings, guidelines, an adverse event report, and a user manual for a vacuum extractor
• AAJ Education speaker papers and Trial articles discussing vaginal operative delivery, associated injuries, common defenses, and tips and strategies for litigating traumatic birth cases, as well as a medical journal survey and a medical glossary

[Deposition summary accompanies each deposition transcript]

Bicycle Crashes
[May 2013; 2,115 pages]
• Provides an overview of three types of bicycle crash cases: bicycle versus motor vehicle, doorin, and improper roadway design
• Complaints, motions, interrogatories, requests for production, transcripts of openings and closings, and settlement letters from across jurisdictions and circumstances
• Sample police and accident reconstruction reports
• Depositions of plaintiff bicyclists, defendant motorists, expert accident reconstructionists, medical experts, loss of earning experts, accident witnesses, and a police officer
• AAJ Education speaker papers, presentations, and articles that highlight strategies, potential pitfalls, and key investigatory techniques
• Additional resources include reports from the National Highway Traffic Safety Administration, U.S. Department of Transportation, Institute of Transportation Engineers, and a list of bicyclist organizations by state

[Deposition summary accompanies each deposition transcript]

Interstate Trucking: Cross-Examining the Trucking Company’s Safety Director and Driver
[UPDATED June 2013; 935 pages]
• Deposition outlines for defendant trucking company’s safety director and defendant truck driver
• Depositions and trial transcripts of defendant trucking company’s safety directors and defendant drivers addressing the issues of trucking company’s organizational structure and operations, accident procedures and policies, driver hiring procedure, and familiarity with the Federal Motor Carrier Safety Regulations (FMCSR)
• Notice to take deposition of defendant truck driver
• AAJ Education speaker papers on trucking deposition strategies and issues specific to deposing and cross-examining defendant trucking company’s safety director and defendant driver

[Deposition summary accompanies each deposition transcript]

Interstate Trucking: Defense Expert Deposition Collection
[UPDATED January 2014, 931 pages]
• General deposition outlines for defense trucking expert and defense accident reconstruction expert
• Depositions of human factors experts, VORAD system expert, driver hiring and safety expert, and three accident reconstruction experts
• AAJ Education speaker papers on trucking deposition strategies, issues specific to deposing adverse and non expert witnesses, and innovative discovery techniques

[Deposition summary accompanies each deposition transcript]
Interstate Trucking: Independent Contractor Defense
[UPDATED December 2012; 578 pages]
- Discussion and guidance regarding how to overcome the independent contractor defense: statutory employee doctrine and nondelegable duty
- Sample plaintiff motion for partial summary judgment; briefs opposing defense motion for summary judgment, trial brief, and appellate briefs
- Information on how to use discovery and jury instructions to establish and strengthen liability
- AAJ Education speaker papers and other resources

NEW Interstate Trucking: Negligent Hiring
[December 2015; 1,357 pages]
- Provides resources useful for members investigating and litigating negligent hiring, retention, and supervision of truck drivers
- Sample court documents including complaints, discovery requests, and deposition summaries and transcripts
- Deposition outlines for safety director, defense trucking expert, and accident reconstruction experts
- AAJ Education speaker papers that provide discovery and trial strategies, tips on how to argue damages, and tackle an interstate trucking case from start to finish

Interstate Trucking: Opening Statements and Closing Arguments
[UPDATED April 2015; 1,826 pages]
